

Signalong Training Course

Phase 1

Signalong provides training and resources to assist those with communication difficulties.

Signalong is a key word sign-supported communication system based on British sign language and is used in spoken word order. It uses speech, sign, body language, facial expression and voice tone to reference the link between sign and word.

It's not just about talking. It isn't easy to see and recognise what happens beneath the surface of children's communication. Being able to listen, pay attention, play and understand are the fundamental building blocks of communication. Adults play a crucial role in supporting these skills. If a child can't listen and understand, they'll struggle to talk.

PlayWise is a registered Signalong tutor and we deliver Signalong training to parents and professionals.

The course will support the learning of hand shape, orientation, movement and placement and involves learning signs specific to your child/ setting. Courses vary between 1-day workshops/ mini workshops and 7 week courses.

The courses are fun, practical and hands-on!

Please email info@playwise.org.uk or call **020 8770 4812** to register your interest for this course.
